

\*Call to Worship © By Rev. Adei Grenpastures

One: Have joy in the one who continues creating us with every breath that we take in, and every breath that we release from our bodies into the balance of nature.

**Many: We give thanks for the gift of life herself and the wisdom and comforter sent by our Creator in the form of the Holy Spirit [Sophia] our spiritual guide.**

One: Creator, help us to fix our intentions, thoughts, and our actions on the helpful things in life that reconnects us with the wholeness that you created us to be. We give thanks for your divine patience.

**Many: I choose not to block my blessing of spiritual wholeness by staying in a state of separation [sin] from God. Today with joy, I awaken from spiritual immaturity turning from the milk of God. I choose today to begin my nourishment on the meat of the word of God that prepares me for the journey of spiritual maturity with God. Amen!**

Unison Prayer of Invocation © By Rev. Adei Grenpastures

**Creator, we are in the season of human and national understanding of Thanksgiving here in the United States of America. In the spiritual understanding of Thanksgiving held by the First Nations People of Turtle Island, it is the annual gathering of gratitude marked by having “A Give Away”. We are thankful for the harvest of life those born and passed since last years harvest gathering. We thank you Great Spirit, for the harvest of healing, wholeness in the body mind and spirit of community through God. Teach us to be grateful for the Earth, our Mother, who feeds us all as her children of salt and light. Gracious God of light and liberty, we are humbled and grateful for your divine encouragement. As we seek a deeper and mature relationship with you, we know that it will close the spaces between all life forms who are our spiritual ancestors and relatives in the circle of life living out the gift of life in your multi-verse. Amen/ AHO.**
